

# THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 39.

THE BLAIRMORE ENTERPRISE

THURSDAY, SEPTEMBER 24, 1925

**WHIST DRIVE AND SOCIAL**

**PANTRY SALE**

The ladies of the United church are holding their annual tea and pantry sale from 3 to 6 p.m. on Tuesday, October 6th, in the church.

The ladies of St. Anne's church will hold a whist drive and social in the Lodge Hall on Wednesday, September 30th, commencing at 5 o'clock sharp. Bear this event and date in mind.

The famous Jasper Park golf course cost in the neighborhood of \$124,000.

**HARVEST THANKSGIVING**

The annual harvest thanksgiving service was held at the United church on Sunday evening last, Rev. W. F. Young in charge. The rostrum was adorned with a splendid display of vegetables, fruits and flowers, and the church was nicely decorated for the occasion.

On Monday, Wednesday, Thursday and Friday nights of this week special prayer meetings are being conducted.

On Tuesday night a social was held at the church and was largely attended. Tea, cake and sandwiches were served, and a programme of vocal and instrumental selections rendered, after which a sale of fruits, vegetables, flowers, cakes, etc., took place, the entire proceeds going into the church funds.

Tonight, the special service will be addressed by the Rev. Dr. Litch, of Vancouver, formerly of Calgary. Dr. Litch has recently been chosen to succeed the Rev. Dr. C. C. McLaurin as superintendent of Baptist missions for Alberta and British Columbia and will again make headquarters in Calgary. Dr. Litch is not altogether a stranger to the people here, he having conducted the anniversary services in Central Baptist church here about twelve years ago, and no doubt a large audience will greet him tonight.

At the Tuesday evening social, the two silver cups, emblematic of the provincial championships in juvenile and midges baseball series, were presented to the Blairmore Tuxis boys. The presentation was made through Mr. W. H. Chappell, in the absence of Mr. L. I. Morgan, representing the A.A.A.

**"THE MIKADO" COMING**

"The Mikado," Gilbert and Sullivan's most popular comic opera, will usher in the 1925 theatrical season at Blairmore on Monday, September 28th. This will undoubtedly be one of the most pretentious and satisfying offerings of the entire season, for this being the fortieth anniversary of the production of this famous gem, the producers are giving the opera a production and a cast fitting to its reputation and undying popularity.

The clever lines and catchy music of "The Mikado" that have been played and sung around the world are none less enjoyable because of their many years of life. The music and jests of "The Mikado" are as old wise. Persons leave the theatre whistling the familiar melodies of "Three Little Maids," "The Flowers That Bloom in the Spring," "Tittilow" and the famous "Madrigal."

Brandon Brothers, who are sponsoring "The Mikado" are bringing an organization of thirty gifted singers to Blairmore. The principals are all possessed with excellent voices and the chorus is composed of fresh, young singers, many of them capable of taking principal roles. The continuing and comic effects are rich and beautiful and complete to the last detail.

The production is of far greater size and quality than usually visits a place the size of Blairmore and the engagement should be an event in the musical and theatrical life of the city. The admission price is extremely reasonable and as the seating capacity of the opera house is limited, lovers of the best in music and good wholesome entertainment should make their reservations early. The seats are now selling at W. A. Beebe's office.

The regular price for this show is \$1.50 up, but by special arrangement Mr. Beebe has secured a price of \$1.00 straight for Blairmore.

**SHOOTING ACCIDENT**

**NEAR HILLCREST**

As a result of a gun accident, a lad named Mackie, of Hillcrest, lies in hospital in a serious condition. Over the week end young Mackie, in company with some other lads, was in through the timber south of Hillcrest, when a gun in the hands of a lad named Grant went off, the .22 bullet entering Mackie's abdomen. Mackie walked a considerable distance and was finally picked up and rushed to the hospital where upon examination it was found necessary to stitch about a dozen perforations. His condition is yet very uncertain.

John Haddon, ex-M. P. of Pincher Creek, was the almost unanimous choice of the Conservatives of Macleod federal riding at a convention held at Macleod on Friday last.

Misses Kathleen Tompkins and Gwen McDonald, and Master Fred Knapman, left here for Calgary on Sunday night, where they enter normal school.

**G.W.V.A. NOTICE**

A special meeting of the local G.W.V.A. will be held in the clubroom on Sunday afternoon, September 27th, at 2:30 o'clock. President A. Walker will be in the chair. Meeting for purpose of re-organization.

**GOLF**

A special golf competition for men and women will be held on Wednesday, September 30th, at 2 p.m. Prizes donated by Mr. and Mrs. Bird.

The regular monthly competition for the ladies will be held on Saturday, October 3rd.

**ROAD WORK PROGRESSING**

Work on the grading of the new trunk highway between Lundbreck and Blairmore is progressing rapidly. Baura gangs and teams have been put on during the week. Messrs. Belyea and McKelvie, contractor and foreman, respectively, have this week graded the road from the Frank Slide to the Blairmore boundary, which without surfacing is already as good as the old road to travel over. The grading between Passburg and Bellevue is nearly completed, as is also the grade from Burnis to Lundbreck.

Alex. Ross, minister of public works, accompanied by Mr. C. A. Davidson, roads commissioner, went over the new grade last week end and expressed themselves as quite pleased with the general appearance of the job and the progress being made.

**ELKS SOCIAL TONIGHT**

The local Elks are holding a whist drive and social in their hall tonight, commencing at 8 o'clock.

Special invitations have been extended to Elks' wives, with urgent request to bring and look after their husbands, and to the bachelor Elks to bring along their special sweethearts or somebody else's wives.

Following a couple of hours of whist, refreshments will be served and a couple of hours will be spent in dancing.

# RED ROSE TEA "is good tea"

The same good tea for 30 years.

## What the West Means to the East

Western Canada's 1925 crop should have the effect of finally convincing Eastern manufacturers, wholesalers and financiers how largely their success and prosperity is bound up in the progress and prosperity of the agricultural provinces of the West, and should open their eyes to the fact that Eastern approval and support of Western undertakings and projects will result in further development and increase our farm production and result in still larger business and dividends for the East. Artisans and workmen generally throughout Eastern industrial centres should become excited of the same knowledge.

In a review of the business outlook in Canada, The Financial Post, Toronto, says of Ontario: "Wholesale business feeling effect of much better demand from Western Canada and look for excellent business this Fall and winter in basic lines. Industry speeding up 100 per cent and over in many cases. Decided falling off in unemployment." In Quebec, it is stated, "very little unemployment exists." In British Columbia "huge building projects are under way, including grain elevators" and "basic industrial conditions are improving gradually." In all provinces the agricultural position is reported better than for many years.

Thus both to the east and the west the effect of prairie production is felt and bringing about marked improvement in the industrial and economic life of the country. Concrete evidence of this betterment is found in the fact that whereas a couple of years ago the Massey-Harris factories were more or less idle, they are now working day and night with full staffs in an effort to fill orders, and the stock of the company is quoted at a figure double what it was at the beginning of the year. Massey-Harris stock has more than doubled since February, while Cockburn Plow has recorded a 30 per cent advance.

Analysing operating results for the first six or six months of the year, a Wall Street financial journal recently has stated the opinion that the C.P.R. would not earn its full ten per cent dividend this year, but improving business throughout Canada resulted in the railway paying the best July since 1917. August maintained the improvement, and with the Western crop now moving and business generally speeding up as a result, both the C.P.R. and CNR are expected to make a splendid showing for the year.

The head of a Western trust company announces as a result of improved conditions his company has disposed of more farm lands in the past five months than in the previous five years. The Hudson's Bay Co. sold more than double the acreage in the first six months of 1925 as compared with the same period last year. An official report of the United States Bureau of Immigration states that the number of farmers settling on the Canadian prairies from a large portion of the United States is fifty per cent greater than for last year, and that the two railway companies and the Hudson's Bay Co. have sold more land in Western Canada than in any similar period for years.

The significance of these things should not be lost upon the people of Western Canada. There is hardly any trait in the wealthy production power of Western Canada, but those responsible for that production continue to labor under certain handicaps which point to be removed, and can easily be removed.

removed if the people of the East will but take a large national view of the policies and undertakings involved, as, for example, an equitable readjustment of freight rates east and west and the early completion of the Hudson Bay Railway. Anything that will aid to the purchasing power of the West, and give a further impetus to its settlement and development, means more further large increase in industrial development and prosperity east of the Great Lakes.

No part of Canada stands to suffer quite so much or so quickly from depression in Western agriculture as the provinces of Ontario and Quebec. If the West remains handicapped, its development will suffer and the people here will not reap the full benefit of their labor. But they will make a big profit and can handle it. But if the necessary business is not forthcoming to keep their wheels turning and their man-power employed, Eastern factories have no option but to shut down and throw their employees into the ranks of the unemployed. The latter must then emigrate to newer and more promising fields.

Development and prosperity in the West means the hum of activity in Eastern industrial centres. The 1925 Western crop is demonstrating this to be true. The East should bestir itself in its own interests and support those policies and undertakings which will assist to make such a condition as nearly permanent as human agencies can make it.

### Manitoba Poultry

Three Carloads of Live Poultry Shipped to the West. Poultry has been shipped recently from the southern half of the province by the Manitoba Co-operative Poultry Marketing Association, states A. C. McCulloch, Dominion livestock inspector, poultry promoter. The birds were shipped in special cars with eight decks of coops, a centre aisle and storage for eight barrels of water and half a ton of grain. One car was shipped to Montreal and the other two to Buffalo.

### Odd House Needs Owner

Structure in Shape of Flatiron Built in Seattle. A house five feet nine inches wide at one end and 16 feet at the other was built on a lot 40 by 130 by 11 feet in Seattle this summer by A. D. Wark, contractor. An ordinance requiring the house to be in line with others on the two streets it faces was the reason the structure took the shape of a flatiron. Wark said. The dwelling consists of three, flat-shaped rooms. In the rooms a disappearing breakfast nook, a sleeping bed and a vanishing dressing board were installed. The basement has a combination laundry and garage. Wark said he was trying to find somebody the house would fit so that he could sell it.

### Montreal's Population

Greater Montreal's population is now estimated at 1,028,000, according to the 1925 issue of Lovell's Montreal Directory, just published. Population of the city proper is estimated at 597,500. Population in the suburbs and surrounding country is given as 129,500. The last estimate of Greater Montreal's population, by the same authority, gave the population as 979,927.

### Big Crowd At Tenney's Home

The biggest gathering of Tennysonians ever held in England met at Aldworth recently to visit the poet's old home in the Surrey hills. This is built on a hill near Haslemere and is now occupied by the poet's daughter, as at whose invitation the members of the Poetry Society journeyed to the poet's cottage.

### Plans Flight From London To Cape Town

British Airman Made Flight To India Last Year. Alan Cobham, Great Britain's long distance airman, is going to attempt a London-Cape Town flight in November. His route will be Paris, Lyons, Pisa, Brindisi and Cairo, the course thereafter to be governed by local conditions. Cobham hopes to reach Cape Town early in December and return to London the same month. Last year Cobham, who is thirty-three years old, completed a 17,000-mile flight to India, carrying as a passenger Sir Sifton Bracken, the air vice-marshal. He proposes to use the same type machine as the D.M.O. in his flight to Africa.

### Mothers' Best Friend In Rearing Children

Pain and sudden sickness are apt to come upon us at any time and are likely to be a source of much anxiety. In having always handy on the shelf a reliable pain relief like good old "Nerviline." For nearly half a century Nerviline has been a family remedy, and most mothers have come to rely upon it in case of colds, sore throat, tight chest, sprains, cramps, nausea and sudden attacks of sickness to the stomach. For internal or external use, Nerviline is worth its weight in gold in every home, and costs but 25 cents in any drug store.

### Considering Plan For Rigid Dirigible

Secretary of U. S. Navy Receives Suggestion From Ford. A suggestion by Henry Ford that the navy department build and experiment with a rigid dirigible, designed by his engineers is being given serious consideration by Secretary of Navy William D. Wood. Mr. Wood has asked the bureau of aeronautics to examine the plans of the dirigible, which were submitted by Mr. Ford's engineers. It is proposed that the ship be 150 feet long, 50 feet in diameter and have a metal gas bag. The cost of one dirigible was placed approximately at \$200,000. The dirigible would have a speed of 10 miles an hour and a cruising radius of 2,000 miles.

### A GRATEFUL LETTER

From a Lady Made Well by Dr. Williams' Pink Pills. "I wish from my heart I could persuade every person who is run down to health to give Dr. Williams' Pink Pills a trial." This writes Mrs. Louis Mitchell, Oak Point, Man., who further says: "About a year ago I was a weak woman, suffering from a run down system and impoverished blood. My little children were constantly liable to tremble and my heart to throb violently. I could not sweep a room for fear of fainting, and I shall always find pleasure in recommending them to anyone needing a tonic." There are many troubles due to weak, watery blood which can easily be overcome by a fair use of Dr. Williams' Pink Pills. The sale mission of this medicine is to enrich and purify the blood and when that is done all the varied symptoms of anemia disappear, and good health returns. You can get these pills through any dealer in medicine or by mail at 50 cents per box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Holds Highest Record. A Worcestershire woman has lived eighty-five years in one house. Her record is beaten by John Hallam, of Flatton, England, who died in his eightieth year in the house in which he was born. He had lived in it all his life.

Hard and soft corners both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

Oldest Cigar Store. Lancaster, Pa., claims the oldest cigar store in America. It has been in the Demuth family since 1770. The store is a treasure house of relics. It contains the first bathtub in Lancaster County, more than a century old.

### May Become Apartment House

Italian Engineer Plans to Make Eiffel Tower Greatest Skyscraper. The Eiffel Tower, in Paris, which today supports what is claimed to be the largest and grandest electric advertising sign in the world, would undergo still another change into something perhaps even more strange and if the idea of M. Carlo Castiglioni, Italian engineer responsible for the installation of the present electrical apparatus, were adopted. What he proposes is that the Eiffel Tower should be converted into a sixty-story apartment house for the special benefit of tourists. The new building would be constructed by erecting cement walls about the present structure, and could easily be fitted out with all modern appliances. The floor space could be used for offices, as well for apartments and rooms, and the result would be the greatest skyscraper in the world, promising for the municipality of Paris a tremendous source of revenue. These are the views of M. Castiglioni, who has said that the plans for building are in preparation and when completed will be submitted to the proper authorities.

Asbestos is Torture. No one who is not gasping for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvelous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

### British Government Aids Women Flyers

Big Grant For Club Which Has Six Women Members. Flying as a profession has been recognized by the British government, as being well within the capabilities of women and a club already has been formed to carry out the air ministry's purpose for a light aeroplane organization for London with members of the fair sex. In connection with the opening recently of the Stag Lane Airfield at Edgware, near London, by the London Aero Club, of which women members are women, a grant has been made to the club for outfitting women pilots for possible enrollment in an air force for protecting the capital from enemy raiders in the event of war with nearby powers. The air ministry has agreed to provide the club with £25,000 worth of equipment and a grant of £1,000 for upkeep, and has promised more money as it is needed. It also will give £10 for every certified woman pilot trained by the club.

### Heavy Grain Exports

15,000,000 Bushels of Wheat Were Exported in August. More than fifteen million bushels of wheat were exported from Canada in August as compared with 12 million in August last year. Of the amount exported, 10,972,000 bushels went to the United Kingdom and 5,088,000 of that amount went via United States ports. The shipments via U. S. ports showed a marked increase over August last year when only 2,284,000 bushels went through American channels. The wheat four exports of August totalled 84,639 barrels as compared with 626,213 barrels.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines causing serious disorders of the digestion and preventing the infant from deriving nourishment from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Absolutely Failures. One of His Majesty's inspectors of schools, in a Scotland city had been teasing the children of a very slummy district for admission to an institution for the mentally defective. "Waiting homebodies through a back street he overheard this poignant comment on his day's doings: 'First lady on the doorstep: "What's wrong wi' ye yunnan? Ye're that stumpy the day." Second lady on adjacent doorstep: "Dor Jeanie was diagnosed for an idiot, an' she didn't pass!"

Ask for Minard's and take no other

### SUNDAY SCHOOL LESSON

SEPTEMBER 27  
REVIEW - FROM ANTIOCH OF SYRIA TO BEREZA

Golden Text: "Whom not having seen ye loved whom, though now ye see him not, yet believing, ye rejoice greatly with joy unspeakable and full of glory. 1 Peter 1:8. Devotional Reading: 1 Peter 4:13-19.

The first foreign missionaries.—As a little group of Christians were praying in Antioch of Syria, God's will was made known to them. They realized that he had called Paul and Barnabas for the special work of preaching the gospel to peoples in other lands. The church at Antioch had been blessed in having the gospel brought to them, and they were glad to share this blessing with others, just as they had been glad to share the food with the poor in Jerusalem during the famine. After fasting and praying and laying on of hands, the little Christian community sent these two foreign missionaries on their way. Thus the great movement for the evangelization of the world began. Paul and Barnabas fell from the port of Seleucia for the island of Cyprus. They landed at Salamis, and after preaching there crossed the island to Paphos. Paphos was the home of the procurator, Sergius Paulus. He desired to hear the word of God, but Elymas, a sorcerer, endeavored to dissuade him from believing. Paul vigorously accused Elymas of being the enemy of all righteousness. The hand of the Lord was upon him. Paul thither declared, and he should be blind for a season. The eyes of Elymas were at once closed, and he had to be led by the hand. The astonished procurator believed the teaching of the Lord.

### Amundsen Will Use Dirigible

Norwegian Explorer Will Again Attempt Flight Over North Pole. Captain Roald Amundsen's next attempt to fly over the North Pole will be made in an Italian dirigible. It was confirmed by the commissariat of aeronautics. The dirigible, the N-1, which has been purchased by the Norwegian explorer expressly for the Polar flight, will be operated by an Italian crew. The conditions of the cession by the Italian Government have not been made public, but it is not believed the explorer purchased the airship outright, since Italy is to share in the honor of the flight by furnishing the crew. It will fly the Norwegian flag.

While termed a dirigible, it is not of the same type as the dirigibles which have a capacity of 10,000 cubic meters, 400 meters long, and 25 meters wide (about 347 by 80 feet) and is equipped with three motors of 245 horsepower, capable of developing a speed of about 52 miles an hour with a cargo of eight tons.

### Largest Carpet in World

Sixty-four Oriental Rugs Woven Together. Weighing over 21 Tons. A weighing over twenty tons, a carpet has recently been laid down on the foyer and restaurant of one of London's leading hotels. It covers a floor space of half an acre. The sixty-four rugs were required to be made, and it is believed to be the largest in the world.

For the first time in the history of carpet-making sixty-four Oriental rugs were woven together. Sixty-two came from Persia and two from China. The weaving was done by rug workers from Samarkand. According to their customs the workers before the growing carpet was allowed to encircle each rug, wore a special prayer rug, and then crossed the loom into the heart of it, to ensure that all who tread them shall know perpetual joy and felicity.

It Will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who are very sensitive to quinine have thus made themselves immune to attack.

### May Revolutionize Industry

Scientist Claims Concentration of Electrical Energy in Small Object. A scientific discovery that may have a revolutionary effect on industry is claimed by A. F. Joffe of the Academy of Science.

Experimenting in his own laboratory, Joffe says he succeeded in obtaining a tremendous concentration of electrical energy in a very small object. The accumulator, which he constructed and charged with energy sufficient to drive the most powerful motor car for ten days, small enough to go into a waistcoat pocket.

### Tribute To Genius

Hilbert honored only for his ability as a composer and artist, Walter Damrosch, conductor of New York Symphony Orchestra, has received the following note as proof of his genius: "Will you kindly call to tune my piano?"

### Saskatchewan Game

Huge Bag Secured By Nimrod Last Season. A bag of 154,500 ducks, 45,000 prairie chickens, 12,500 partridge and 5,500 geese, was secured in Saskatchewan by 5,223 sportsmen, who have complied with the requirements of the Game Act by filling out and returning the coupon attached to the game license. Over 10,000 hunters failed to make returns. Assuming that these defaulters shot on an average as many birds as those who returned their coupons, the total bag secured would be 615,000 duck, 150,000 prairie chicken, 54,000 partridge, and 22,000 geese.

### STIFFNESS

of any kind can be quickly relieved by massaging with MINARD'S LINIMENT

### Germany Has New Idea

Increase Dog Taxes to Raise Funds For Opera. In order to support the opera and make up opera deficits, the Prussian Government of Berlin has proposed an increase in dog taxes from \$10 to \$15. According to Berlin's present canine population, the tax increase would swell the treasury by \$1,500,000 yearly. They point out, "It is a question whether raising a dog or attending the opera is more cultural," says one paper, which further proposes adding another political party to the score or more new seating, and make a large dog tax for every citizen. "If you do it, you want my vote," is suggested.

### TEETHING BABIES

Thousands of Them DIE EVERY SUMMER. The hot weather is very hard on babies starting to cut their teeth. On the first signs of any looseness of the gums, the mother should give a few doses of

**DR. FOWLER'S EXT-O-F WILD STRAWBERRY**

This will quickly offset the diarrhea, vomiting and purging, and perhaps save the baby's life. Put up only by The T. Milburn Co. Limited, Toronto, Ont.

### Many Women Leaving England

According to official figures just made public, 16,000 females, wives of housekeepers, left the British Isles for British North America last year, and 6,000 went to Australia. Over 10,000 males migrated last year to British North America to engage in agricultural work. The total number of emigrants from the British Isles in 1924 to other parts of the empire was 115,000.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Sept. 24, 1925

BLAIRMORE SCHOOL BOARD  
IS IN DEEP WATERS

There is considerable evidence throughout this province of a concerted effort on the part of Alberta school boards to break up the Teachers' Alliance. Blairmore is one of the places where a school board has refused to recognize the Alliance. That town is now paying for the full-headed attitude of its school board. However, organization of the Teachers' Alliance must come for the same reason that organization in other lines must come. At present, the organization of teachers is in a formative stage, but later they will be thoroughly organized and then the school boards will recognize them because the organization will talk to the boards instead of individuals doing so. The boards are organized, why not the teachers?—Editor, Janis-fall Province.

The school situation in Blairmore is very distressing. Surely the minister of education could bring some kind of order out of the present trouble if he tried. It is true that the effort should have been made earlier in the proceedings, but even yet he should do something to arrive at some sort of an understanding.—Calgary Albertan.

Suit for damages to the extent of \$15,750 was filed in the supreme court on behalf of the teachers in the Blairmore High and Public Schools, who charge unlawful dismissal against the Board of School Trustees of that town. The plaintiffs claim that their

contracts with the board were never legally terminated, although they refused to individually accept wage reductions of between 10 and 15 per cent and were dismissed because of this stand.—Red Deer Advocate.

The Blairmore school case is going from bad to worse, with former teachers bringing action in the courts against the school board. The minister of education would do a public service, not merely to the town of Blairmore, but to the entire province, if he made peace or effected a compromise in that distressing condition of affairs. Surely there is some way out. School teachers and school trustees usually are reasonable people who have no liking for litigation.—Calgary Albertan.

## COOTE IS NOMINATED

At the recent convention of the Macleod Federal Constituency Association, held at Macleod, the following resolution was unanimously passed: "Whereas, our federal member, G. G. Coote, has diligently and persistently adhered to and fought for the principles of the organization and the interests of the citizens of Western Canada;

"Be it resolved, that this convention express its appreciation and sincere thanks to Mr. Coote for his loyalty and devotion to our cause and the cause of the west in general." Mr. Coote gave a very interesting and comprehensive report of his four years' stewardship at Ottawa, much of which time has been taken up on the banking and commerce committee, which was of real service to Western Canada, through some of the amendments to the Bank Act for which he labored were killed by the senate. The convention further honored Mr. Coote by giving him the unanimous nomination to again contest the next federal election.—U.F.A.

For information regarding convenient bumps or ditches in Hillcrest's thoroughfares, call up Tony Casagrande.

## TIME FOR INTERVENTION

Forren Baker, minister of education, should step into the breach in Blairmore and attempt to make peace in the school trouble. It is true that school administration is in the hands of a school board, elected directly by the people, and the autonomy of bodies of that kind must not be recklessly invaded. That may be a correct principle, but it should not prevent the minister from making a forceful effort to effect some sort of settlement.

The situation in Blairmore is serious. Some teachers are in and some new teachers are in. The police have been brought in. The children are in a very belligerent atmosphere, and the entire episode is beneficial to no person. The teachers believe that the action of the board in reducing their wages and later dismissing them, does not meet with the approval of the newspapers.

Whether that is the case or not will possibly be determined at the next municipal election. In the meantime the school is in a seething turmoil and will likely remain so until after the election, and probably for some time after that.

It is an atmosphere not conducive to the best interests of the children, and the whole trouble has an ill-effect on education, not only in the Pass, but throughout the province.

Had the department of education used a little more tact and vigor it could have prevented the trouble, or at least delayed the climax until after the coming election. Now that the trouble is on, the minister could, without invading the autonomy of school boards, assist himself a little

more courageously and vigorously and bring peace out of a very troublesome situation.—Calgary Albertan.

The mosquito is like a child. When he stops making a noise you know he's getting into something.

Hon. Dr. King, as deputy grand master of the Grand Lodge of British Columbia, I.O.O.F., was last week presented with a veteran's jewel on the occasion of a brief visit to his old lodge at Cranbrook, of which he was a charter member.

## ART

Grade I. Seven entries. First, Annie Wischniewski; second, Besse Sterba; third, Fred Radford.

Grade II. Eight entries. First, Jennie Scodellaro; second, Willie Harvey; third, Helen Knezacki.

Grade III. Five entries. First, Pauline Urbash; second, Annie Koran; third, Annie Brown.

Grade IV. Seven entries. First, Angelina Ratko; second, Adilia Vendracio; third, Martha Dudek.

## COWLEY HAPPENINGS

Mr. Inhoff, of Iowa, is a guest at the Meade ranch.

Mrs. James Leigh is enjoying a visit from her sister and mother, of Hillcrest.

The Honorable Mrs. Parby, of Alia, was the guest of Mrs. M. A. Murphy on Tuesday last.

In spite of battling against snow, rain and mud, the school fair, which was held here on Friday, was a decided success. There would have been a great many more entries had the weather been more favorable. The entries were judged by competent judges from the agricultural college, Clarendon, who made clear to the exhibitors the weak points of their exhibits. The children were commended highly on the interest shown in all the fair work. The elocution contest was held in the evening and was worthy of considerable praise on the courage of the youngsters, who bravely took part in this branch of the school fair work, and whether winning or not are deserving of congratulations. A lively dance next took place, which was highly enjoyed, as the floor was not too crowded, as it usually is on this occasion. Mrs. Alternatt's orchestra was in attendance and rendered their usual high class music.

Following is a list of the winners at the school fair:

Class 39, Plain Cake. 1, Hazel Eddy; 2, Barbara Bundy; 3, Alvin Murphy; 4, Edith Murphy.

Class 43, Baking Powder Biscuits. 1, Lillian Everts; 2, Nellie Robinson; 3, Edith Murphy; 4, Freda Roper.

Class 44, Ginger Bread. 1, Willie Musgrave; 2, Rosella Schambro; 3, Bessie Cooper; 4, Harry Eddy.

Class 45, Drop Cookies. 1, Drucilla Schambro; 2, Agnes Wycliffe; 3, Marshall Carney; 4, David Lewis.

Class 47, Plain Cookies. 1, Doris Musgrave; 2, Nellie Musgrave; 3, Mary McLachlan; 4, Alton Robinson.

Class 48, Baked Baked Beans. 1, Nellie Musgrave.

Class 49, Apple Pie. 1, Vincent Walters; 2, Nellie Musgrave; 3, Mary McKay; 4, Doris Musgrave.

Class 50, Maple Cream Candy. 1, Barbara Bundy; 2, Ida Eddy; 3, Tommy Hannan.

Class 51, Baked Rice Pudding. 1, Tommy Hannan; 2, Edith Murphy; 3, Pat Smith.

Class 52, White Wheat Bread. 1, Alma Franz; 2, Agnes Wycliffe; 3, Nellie Musgrave.

Class 53, Collection of Canning. 1, Mary McLachlan; 2, Nellie Musgrave; 3, Doris Musgrave.

Class 54, School Lunch. 1, Willie Musgrave; 2, Nellie Musgrave; 3, Doris Musgrave; 4, V. Walters.

Class 55, Doughnuts. 1, Drucilla Schambro; 2, Stephanie Jacobic; 3, Rosella Schambro; 4, Willie Musgrave.

Class 56, Bouquet of Asters. 1, Harold Snyder; 2, Roberta McLachlan; 3, Edith Murphy; 4, Alvin Murphy.

Class 57, Bouquet of Poppies. 1, Edith Murphy; 2, Alice Bratton; 3, Drucilla Schambro; 4, Jack Cowan.

Class 58, Bouquet of Sweet Peas. 1, Edith Murphy; 2, Alvin Murphy; 3, Mary McLachlan; 4, Dorothy Irwin.

Class 59, Still Life Group in Pencil. 1, Nola Nelson.

Class 60, Landscape, VII. and VIII. 1, Mary Hammond; 2, Kathleen Porter; 3, M. Madden; 4, Ronald Lewis.

Class 61, Room, VII. and VIII. 1, Ronald Lewis.

Class 62, Poster Problem, VII. and VIII. 1, Esie Bennett; 2, Kathleen Porter; 3, Sandy Porter; 4, Lillian Robinson.

Class 63, High School Poster. 1, Doris McEwen; 2, Isabel Morrison; 3, Esie Bennett.

Class 64, Landscape H. R. 1, Violet Penn; 2, Esie Bennett.

Class 65, Initial. 1, Esie Bennett; 2, Doris McEwen; 3, Mary Kaye; 4, Isabel Morrison.

Class 66, Pennmanship, I. 1, Gerard Diamond; 2, Carl Sapeta; 3, Joe Druddie; 4, Jimmie McKay.

Class 67, Pennmanship, II. and III.

Interesting scene from the ever joyous "Mikado," Gilbert and Sullivan's brightest comic opera, coming to the Blaimore Opera House September 28

1, Lottie Everts; 2, Mary Perish; 3, Annie Dundie; 4, Felice Marcelli.

Class 83, Pennmanship, IV. and V. 1, M. Walters; 2, Mollie Gunn; 3, Hazel Eddy; 4, Lillian Everts.

Class 84, Pennmanship, open. 1, Mary McLachlan; 2, Drucilla Schambro; 3, Roberta McLachlan; 4, Ronald Lewis.

Class 85, Composition, II. 1, Carl Sapeta; 2, Annie Dundie; 3, Ida Eddy; 4, Charlotte Crayford.

Class 86, Composition, III. and IV. 1, Mike Yagor; 2, Charlie Yagor.

Class 87, Composition, V. and VI. 1, Ethel Robinson; 2, Bessie Cooper; 3, Ruth Tench; 4, Vera Tench.

Class 88, Composition, VII. and VIII. 1, Doris Musgrave; 2, Willie Musgrave.

Class 89, English Special. 1, Hood Foyler; 2, Bill Potapoff; 3, Andrew Dunnet.

Class 90, Elementary Science. 1, L. Class Runk.

Class 91, Elementary Science, III. 1, Ruby Fink.

Class 92, Elementary Science, VI. 1, Ethel Robinson.

Class 93, Geography, V. 1, Harry Eddy; 2, Bertha Borthwick; 3, Marshall Carney; 4, Lillian Everts.

Class 106, Geography, VII. 1, Mary Hammond; 2, Vincent Walters; 3, Ronald Lewis; 4, L. Lissa.

Class 99, Geography, VI. 1, David Lewis.

Class 101, Geography, VIII. 1, Mary McLachlan; 2, S. Lissa.

Class 95, Elementary Science, IV. 1, Mike Yagor.

Class 96, Poet. 1, Willie Musgrave; 2, Doris Musgrave.

Class 97, Dairy Heifer. 1, Muriel Marlow; 2, Willie Musgrave.

Class 98, Chickens, egg type. 1, Muriel Marlow; 2, Dorothy Irwin.

Class 99, Chickens, utility type. 1, Ron. Morrison; 2, Doris Musgrave; 3, Dorothy Irwin; 4, Harry Eddy.

Class 34, Cockerel, egg type. 1, Muriel Marlow.

Class 35, Cockerel, utility type. 1, Willie Musgrave; 2, Alvin Murphy.

Class 37, Pullet, utility type. 1, Nelson; 4, David Lewis.

Willie Musgrave; 2, Nellie Musgrave; 3, Alvin Murphy; 4, Willie Riton.

Class 52, Cleaning Mitt. 1, Anne Dundie; 2, Edna Lewis; 3, Felice Marcelli; 4, Charlotte Crayford.

Class 53, Hemmed Towel. 1, Ruby Fink.

Class 54, Hand-sewn Bag. 1, Barbara Bundy; 2, Angella Lissa; 3, Ida Eddy; 4, Charlotte Crayford.

Class 55, Knitted Doll's Scarf. 1, Hazel Eddy; 2, Ruby Fink.

Class 57, Slip-over Apron. 1, Nellie Musgrave; 2, Doris Musgrave.

Class 58, Hemmed Patch or Cotton. 1, Myrtle Bennett; 2, Nellie Musgrave; 3, Ronald Lewis; 4, Elvina Lissa.

Class 59, Woven Darning. 1, Nellie Musgrave; 2, Doris Musgrave.

Class 60, Sample Buttons Holed. 1, Nellie Musgrave; 2, Doris Musgrave; 3, Ethel Robinson.

Class 62, Knitting. 1, Nellie Musgrave; 2, Doris Musgrave.

Class 63, Thrift Problem. 1, Mary McLachlan; 2, Harry Eddy; 3, Myrtle Bennett; 4, Roberta McLachlan.

Class 64, Plasticine, I. and II. 1, Pauline Leskowsky; 2, John Leskowsky; 3, G. Jakuben.

Class 66, Paper Tearing, I. and II. 1, Joe Dundie.

Class 65, Crayon, I. and II. 1, Geo. Evashen; 2, Peter Wiseman; 3, Annie Dundie; 4, Joe Dundie.

Class 67, Crayon, III. and IV. 1, M. Walters; 2, Bill Maloff; 3, Lottie Everts; 4, Edna Lewis.

Class 69, Landscape, III. and IV. 1, Ida Eddy; 2, M. Walters; 3, Felice Marcelli; 4, Geo. Evashen.

Class 70, Landscape, III. 1, Ameghe Lissa; 2, John Dundie; 3, Felice Marcelli; 4, Hazel Eddy.

Class 71, Box, IV. 1, W. Potapoff; 2, Ron. Morrison; 3, M. Walters.

Class 72, Drawing, V. and VI. 1, Elvina Lissa; 2, Nola Nelson; 3, David Lewis; 4, Lillian Everts.

Class 73, Landscape, V. and VI. 1, Jim Smith; 2, Vera Tench; 3, Nola Nelson; 4, David Lewis.

WORLD HAPPENINGS  
BRIEFLY TOLD

Dr. J. S. Haldane, oldest Free Mason in the United States, and possibly in the world, died recently at the age of 107.

Officials of a safety association have computed the annual "traffic loss" of the United States. It amounts to two billion dollars annually, or \$20 for every citizen.

The importation of Welsh semi-anthracite coal to supplement supplies of Pennsylvania anthracite during the present strike is being considered in New York.

Dr. H. B. S. Jordan, former British minister to Portugal, member of the League of Nations advisory committee, died suddenly at a meeting of the China Association in London.

Robert A. Loar, a West Virginia attorney, having made a bet during the last presidential campaign that Davis would beat Coolidge, has paid up by walking 410 miles barefoot.

A stamp bearing the likeness of President Wilson will be issued by the United States post office department by the first of December, if the plans of the friends and admirers of the war president succeed.

Manufacture of liquor containing 60 per cent. of alcohol and vodka of 60 per cent. will be permitted in Soviet Russia from October 1, under a decision reached by the central executive committee.

It is announced that the French Government has accepted the invitation of the Toronto Horse Show officials to be represented at the tournaments in the Ontario city next November.

The United States post office department plans to open eight new air mail routes this fall. Bids for the contracts for the new routes, which are in the south and west, have been opened.

The London Evening News writes Congressman Fred Britton, of Illinois, on his way home after a trip to Russia, as saying: "I told the British, the French and the Americans that they are a lot of murderers and thieves."

Pending realization of the League of Nations' hopes of general limitation of armaments, efforts will be made immediately for a partial reduction of armaments.

Germany's military power is maintaining a defence compatible with the present international situation.

Britain has ordered the stage of "capitalist destruction" and is "based on the fact that Lenin's theory declares in a book entitled 'Whither England,' an American edition of which has been published in New York.

## London to Australia in Week

Two New British Airships Can Carry 140 Passengers

Two airships are now in the course of construction in England which it is claimed will be able to fly to Australia in a week. The two new British airships which are to inaugurate the inter-empire air services in 1927 are of 5,000,000 cubic feet capacity, or nearly twice as large as the present largest airship in the world. Each of the new ships will carry 140 tons, and the R100, Commander Murray's ship—the other, R101, is being built by the air ministry—will have a capacity for 140 passengers. Though the speed of these ships is around 75 miles an hour, the ships that will follow these pioneers will, according to Murray's plans, travel at 100 miles an hour, and bring the continent of Australia, 10,000 miles away from Europe and Asia, within four days' time distance from the heart of the empire.

## Wonders Of Radio

Photo Transmitted By Radio While Lecture Is Broadcast

What radio-television may finally attain to millions of homes was illustrated in New York at a fourth annual national radio exposition at Grand Central Palace, when a photo of Davis Sarnoff, vice-president of the Radio Corporation of America, was transmitted by radio at the same time his address was broadcast. Sarnoff predicted the time when the American farmer would "sit in" on an operatic performance broadcast from Covent Garden in London, and when a speaker would be able to send his voice into every home equipped with radio.

## Many Leaves On Elm Tree

A certain botanist who has given much thought to the matter estimates that a good-sized foliage tree such as an elm, may produce a crop of no fewer than seven million leaves. The combined surface of all these leaves amounts to no less than 200,000 square feet.

W. N. U. 1925

## A Daring Experiment

Electrical Wizard Believes That Science May Rival Nature

Across the gap between the electrodes of a giant electric machine leaped a mighty arc of blue-white flames. A terrible crackling roar made the quiet of a Paris laboratory. Then Prof. Jean Perrin, white-haired, white-bearded, benevolent-faced, opened a switch with a long-fingered white hand. The crackling ceased. In the muted quiet even his low pitched, pleasant voice sounded loud. "It is but the beginning," he said. "Soon I shall have available a means of producing 10,000,000 volts of direct-current electricity. Then, perhaps, I shall be able to reproduce, on a small scale, the conditions that cause the radiation of light and heat from the sun and the still more gigantic stars of the universe!"

Such is the report given by Frederic R. Kellogg to the October Popular Science Monthly of a remarkable experiment recently completed by Professor Perrin, head of the laboratory of physical research of the famous University of Paris, an experiment that leads this noted French scientist to believe that eventually he will be able to create, in effect, another sun.

"With 10,000,000 volts of direct-current electricity," said Professor Perrin, "I believe I can break up the atomic structure of matter—disintegrate individual atoms, perhaps even drive the nucleus of one atom into another atom and thus create a much denser atom. If I am able to do that the secret of the sun's radiation will have been solved."

Professor Perrin explained that the sun is formed by the constant changing of the extremely light atoms of hydrogen into atoms of greater weight, such as atoms of oxygen, nitrogen and the other heavier elements. According to his theory, many of the other scientists agree with that theory, everything in the universe—the sun, the stars, the planets, and everything on them—consists of atoms of hydrogen, and these atoms change gradually into heavier atoms, that make up our atmosphere, our soil, our rocks, our own bodies.

"In changing into any other element," he believes that hydrogen changes first into helium, which was found in the sun before it was found on earth. "In doing so, a portion of its atomic weight is lost and given off as energy. This released energy comes

to us from the sun in the form of light and heat, and makes life possible on earth."

"By hurling against the atomic structure 10,000,000 volts of electricity, I may be able to produce this change of light atoms into heavier atoms, and thus, in effect, create another sun."

Some of the vast energy released by a great sun-producing plant, Professor Perrin predicts, could be captured and transmitted by its own light, or to provide light and heat for great communities in place of coal and oil.

## Canada Is Well Represented

Has Members On Various Committees Of League of Nations

The Dominions and India are well represented on the various committees of the Assembly of the League of Nations, at Geneva.

The following Canadians are on committees: Philip Roy, commissioner-general in Paris, committee on technical questions and the financial and economic committee; Senator Hewitt, committee on disarmament; Mr. A. M. Macdonald, Canada's permanent representative at the league, in charge of the Canadian bureau, committee on social questions and committee on political questions.

## British Soldier Had

To Discard Uniform

Obliged To Wear Civilian Clothes In Irish Free State

A British soldier of Enniskillen, who entered Free State territory at Dundora, Donegal, in khaki uniform, with some of his relatives, was arrested by Civil Guards, who said he had there by committed an offence, and would be detained. The offender, who said he was unaware of the offence, was then given a civilian cap and coat and was set free to enjoy his stay in Dundora. When his day's holiday ended, he reported to the Civil Guards in barracks and returned the civilian clothes.

A lunatic, acting as engineer at Portlaoine (Ireland) Mental Hospital, is regarded by the chairman in charge as an absolute genius. He has saved the committee over \$1,000 by his ability.

In the long buried city of Ur of the Chaldees a piece of sculpture has been dug up, showing a picture of workmen carrying morlar up ladders.

ECLIPSE FASHIONS  
Suggestive Patterns

A Simple Design For Girls

Girls' dresses adhere to simple lines and often are quite restrained in their ornamentation. The whole idea of the main trimming feature of the dresses pictured here, which is cut in one piece, with a little extra fabric over the hips at the low waist-line. The sleeves may be made shorter long and gathered into a band at the wrist. The dress has an opening at the centre front, and the neck is finished with a narrow collar. Sizes 8, 10, 12 and 14 years. Size 8 years requires 2 1/2 yards of 32-inch, or 2 1/2 yards of 36-inch material. Price 26 cents.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker. Price of the book 10 cents the copy. Each copy includes one coupon worth five cents in the purchase of any pattern.

Used Seventy-Year

Old Christening Robe

Baby Girl Christened in Robe Worn By Grandfather At Similar Ceremony

Seventy years ago, on board ship mid-Atlantic, making the then slow and difficult passage from Scotland to Canada, a little Scotch baby was christened. This was Master Alexander Fleming, who, after coming to Canada with his parents as a tiny lad, became an honored citizen of Cranston, Ont. Recently Alexander Fleming's baby grand-daughter, Marion Jean Fleming, daughter of Mr. and Mrs. Edgar Fleming, of Galt, was christened in London, Ont. Col. the Rev. Dr. William Beattie administered the rite of baptism following the marriage of the baby's mother. And the baby girl, who wears a dress of deep blue serge, with much dignity, was dressed for the big occasion in the same little lace-trimmed robe worn by her grandfather at his more adventurous baptism, 70 years ago.

## Refuse To Comply With Request

Radio Negotiations With French Government Prove Unsuccessful

Negotiations which the British Government is conducting with the French Government on behalf of Canadian radio operators with regard to cessation of the use of 450 and 500 metres wave by their ships and stations off the east coast of Canada have been unsuccessful, the French Government being unable to see its way clear to comply with the British Government's request.

The German Government, it was learned, has agreed to comply with the request of Canadian radio operators, and has issued instructions accordingly to ships flying the German flag.

A lunatic, acting as engineer at Portlaoine (Ireland) Mental Hospital, is regarded by the chairman in charge as an absolute genius. He has saved the committee over \$1,000 by his ability.

## Wembley Exposition Faces Big Deficit

Estimate Puts Loss At About Three Million Pounds

The British empire exposition at Wembley will prove as great a financial failure this year as in 1924, it is feared. One estimate puts the loss to the big British firm guaranteeing the exhibition at \$3,000,000.

This pessimistic forecast is based on the rate of attendance to date. It is estimated that unless the attendance totals rise only 8,500,000 persons will have gone to Wembley this year by the time the great fair closes its gates at the end of October. Last year 17,000,000 paid admission, which was half the number needed to make Wembley a financial success.

"The biggest financial proposition ever put up by this country is also the biggest failure," says one London newspaper today, attributing the failure to the fact that "Wembley all along has lacked a showman—an inspired anticipator who with the marvelous material at hand could have made it the most successful and stimulating exhibition the world has known. Today Wembley is a tragedy of inept management."

## Manitoba Wheat Pool Do Well

Handled Over Eight Million Bushels At Slight Cost

The Manitoba Wheat Pool alone handled nearly eight and a half million bushels of wheat last year as an administrative cost of slightly over three-fifths of a cent per bushel. Interest, insurance and elevator charges absorbed a little less than half a cent. The total cost thus being a trifle over a cent a bushel.

At the annual meeting of the pool held in Winnipeg, three prizes of \$75 each were voted to be given next year for the best essays on co-operation—competition to be limited to teachers and college students in rural high schools in the province.

A resolution was unanimously passed, to become effective at the next meeting of the pool, declaring that no member of the legislature or of parliament, or of the executive council of the province of Manitoba or the Farmers' Union of Canada shall be eligible to serve as director of the wheat pool.

## Real News

Finding of a Rust-Resisting Variety of Wheat

Great events often are simply overlooked. From Aberdeen, comes the announcement that the claim of M. S. Macdonald, Scotch wheat grower, to have developed by cross-breeding a variety of wheat that resists all insects to inflict it with rust, has been substantiated by agricultural scientists and found to be true.

Finding of a rust-resisting variety of wheat means literally millions of dollars to the agriculture of the world. Such a discovery of a new wheat would mean a great saving of money to farmers of all countries.

Such triumphs are of far more importance and deserving of more public attention than news of the declarations of war or the signing of peace treaties—Fort Worth Star Telegram.

## Baldwin and His Pipe

Breaks Tension at Critical Period in Negotiations With Miners

The pipe of peace was once more blown at a critical period of the negotiations between coal miners, owners and the government. When the two sides reached a point where a deadlock seemed inevitable, and the atmosphere was strained and formal, Premier Stanley Baldwin, in his pocket and produced his pipe. This he began slowly to fill, remarking: "Let's smoke, shall we?"

The suggestion was adopted by both miners and owners, and the formality of the strained atmosphere gradually disappeared. Within an hour the basis of a provisional agreement had been reached.

Broadcast Carnival Sounds of Fair. Broadcasting the carnival sounds of a big state fair will be attempted for the first time. Raucous cries of the hot dog vendors, the tooting of merry-go-rounds, the squealing of pigs, the crowing of cocks, moaning of cows, rattling of racing hoods on the track, the roar of speeding automobiles and the blas of the hardy-gurdy shows will be put into the microphone of a St. Paul station from the Minnesota state fair grounds.

When Locusts Stop Flying. A flight of locusts will rise to a great height and cover forty or fifty miles in a day. But once the locust swarms come to the ground, there is no more trouble, for every green thing and never again using its wings.

If wives were as nice to their husbands as female clerks are to their male customers, but few matrimonial failures would be recorded.

## Example To World

Election of Senator Dandurand of Canada to Presidency of League Of Nations

Canada, conceived as "example to the world of how to handle successfully the problem of the treatment of minority populations," declared Paul Pélissier, premier of France, as the retiring chairman of the League of Nations assembly, speaking in the assembly at Geneva, on the election of Senator Dandurand of Canada to the presidency.

The election was the feature of the session. M. Pélissier paid a tribute to Senator Dandurand as a statesman of high capacity and deep knowledge of justice, and as a man of high character and French values. In Canada, M. Pélissier said, French civilization lives peacefully and in brotherly union with the British and French civilization.

He said that the choice of the assembly was particularly felicitous, as Canada was on common ground with the British and French civilization.

Senator Dandurand, who was elected to the presidency, is a member of the House of Commons, and was a member of the House of Commons, and was a member of the House of Commons.

## C.N.R. Tourist Traffic

Sets New Record

Passenger Traffic This Year Has Surpassed All Previous Records

Reporters presented at a recent meeting of passenger traffic officials of the western region, Canadian National Railways, held at Jasper Park Lodge, showed that passenger travel this year on both rail and steamship services of the system has surpassed all previous records. Despite the increased accommodation offered this season at Jasper Park Lodge, the quarters have been filled to capacity throughout the summer. This summer the Canadian National Railways, the Alaska route, with great success, while the development of the Trans-Alaska Tour, taking in Vancouver, Jasper Park and Prince Rupert, has brought more tourists into the Northern Canadian Rockies than ever before. A Canadian passenger traffic manager of the region, announced that greater efforts than ever will be made to place Canada before intending tourists and to develop all traffic east and west within the Dominion.

## Items of Local and General Interest

Mr. J. A. Kary was a business visitor to Calgary on Tuesday.

The Sons of England Grand Lodge will meet in Red Deer next year.

John Z. Bead, a C.P.R. brakeman, was caught in the act of burglarizing a store at Alderleyde.

WHITE ROSE GAS now 42 cents per gallon at the Blairmore Vulcanizing and Battery Station.

The Imperial Radio orchestra, of Calgary, will give a dance in the Union hall at Hillcrest tonight.

The new lodge of Elks will be installed at Vulcan on October the 8th, and at Claresholm two weeks later.

One of the large trucks being used to convey gravel for the highway, turned completely over in the soft grading east of Cowley on Wednesday.

A meeting of Liberals was held in the office of Gillis & Mackenzie on Monday night, when delegates were appointed to attend the Macdonald constituency convention.

One hundred and thirty striking seamen have been sentenced to two weeks' imprisonment on charges arising out of the disorders incident to the unofficial strike of seamen in London, England.

The young people of St. Luke's church want all the young people of Blairmore to join them at the Elks' Hall at an International Fancy Dress Party on Thursday, October 1st, at 7 p.m. Admission 25 cents. Prizes will be given for the best national costumes, boy and girl, open to the world. This is a novel form of entertainment and a chance for all the young people of Blairmore to get together for a pleasant evening.

As a result of successful experiments in the making of paper and paper products from waste straw in Alberta, which have been conducted under the auspices of the provincial government, the government is now making an effort to interest capital in the proposal to establish a plant or plants in the province. The government expresses confidence in the success of such an enterprise, and states that the results of the experiments made have been of the greatest importance, not only to the farmers, but to the general industrial development of the province.

### DRIVERS MUST KEEP ON RIGHT HAND SIDE OF ROAD

A decision of interest to motorists has just been handed down by Judge Mahaffy in an appeal case at Innisfail.

It appears that a Mr. and Mrs. Aspinall, of Innisfail, were driving in their car on the generally used trail in the road when they met a Mr. McPhee in his car. McPhee had been driving along the generally used trail. This generally used trail was to Mr. Aspinall's right hand side of the road. McPhee continued on his journey, shifting a little bit to his right, but allowed his left wheels to run in the track nearest him on the used trail, which he did not quit until he was almost on Mr. Aspinall's car. McPhee's contention was that he was entitled to half the used trail. Both the magistrate and the judge held that a driver was only entitled to his right hand side of the regular made roadway, and that he was not entitled to go over the centre line of the regular roadway, even if the used trail was across the centre line, in passing another car, unless his own side of the road was utterly impassable.

The observance of this decision is likely to save drivers trouble, where there is not opportunity or convenience for mutual accommodation.

And the beauties of nature can best be seen at the bathing beach.

Work in the district mines has been very slack during the past two weeks.

An occasional puncture really improves an outing. It gives you time to look at the scenery.

A corn show is to be held in Blairmore shortly and all ladies are asked to bring along their corns.

Mr. McDougall, of Medicine Hat, is the guest for a few days of his sister here, Mrs. S. Bannan.

A copy of the first issue of the Cardston News has reached our office. It is a bright, new and promising sheet.

The Regina hockey team has been sold for \$75,000, to go to Portland, Oregon. The Hamilton, Ontario, team has been sold to New York.

Mr. Coombs, of the Dominion land branch of the department of interior staff, was in town during the week and made a trip up the upper Livingstone on Wednesday.

The marriage of Miss Bertha Louie, only daughter of Mr. and Mrs. J. W. Gresham, to Mr. Lewis Dunkley, will take place at the United Church on Thursday next, October 1st, at 3 o'clock.

The following writup has been handed in, as we go to press, regarding tonight's Elks social. "The Blairmore Elks' lodge was instituted almost a year ago. It has a membership of about 115, most of whom are Scotch or Scotch descent. This week's social was very largely attended, as there was no admission fee."

A Sdbury, Ontario, trustee of high school, when presented with a request from the girls' athletic society of the school, for permission to hold a dance in the rink, replied, that the young people were "good dancers but poor scholars." In this he was supported by members of the board. The board attacked inter-collegiate athletics, claiming that they were expensive and merely excuses for enabling the students to hold dances and get trips out of town.

Miss Winifred Dicken entertained a number of young people on Wednesday evening in honor of Mr. Wilfred Dutil, who is leaving shortly to resume his studies at the Edmonton University. The evening was spent in singing and games, the chief event being a duet, "Charlie and Katrina," by Miss Dicken and Miss Palmer. Miss Dicken, as "Charlie," brought the house down. All present reported an enjoyable time. Those present were: Misses Winnie Dicken, Fern Palmer, Margaret Kemp, Edith Christophers, Irene Dillingham, Louisa Gresham, Mrs. Fred Houghton, Miss Beany Dawson, and Messrs. Wilfred Dutil, Bob Barnhill, Rene Gresham, Harvey Carmichael, Lewis Dunkley, Glyn Thomas and John Lloyd.

DR. DUBOIS' PRESCRIPTION, "FEMALE PILLS" are sure and safe—a monthly medicine you can absolutely depend upon. No. 1, \$2.00 per box; No. 2, \$5.00 per box. Postpaid. The Western Laboratories, Box 33, Mulvihill, Manitoba. [Mar-24]

FOR THE FINEST FLOWERS made in most artistically arranged wreaths and sprays for funerals, at lower prices, please write order to 222, SCOTTS' FLOWERS, [Mar-24]

Southern Alberta's Leading Florist. (Fraser's Flowers means Fresh Flowers.) [10-24]

We note that, unless the Blairmore School Board objects, the Sunday School teachers of Alberta will band themselves into a union to protect themselves from the inroads of scabs.

Miss Catherine Crystal, B.A., of the University of Alberta, Edmonton, has accepted a position on the Blairmore teaching staff for the overflow room, making three with degrees and bringing the staff up to thirteen.

"And then, my dear, she wrote me the most insulting letter and I admit I was going to say something pretty nasty, but then I remembered that I was a lady so I just wrote, 'You go to Hell,' dignified-like at the bottom of her letter and sent it back to her."

—Goblin.

### MOTHER'S BREAD

"The Bread that Builds"

Every slice contains a big measure of nourishment.

Think of the pure food products that make a loaf of Bread.

Think of the part Bread played in winning the war.

Value it as your most important food.

Mothers Bread is really delicious in addition to being really nourishing.

Ask your grocer about it.

Bread is your Best Food—Eat more of it.
